Get ready to explore, become inspired, and connect with us this National Library Week. Libraries are there for you, all the way to the finish line!

**National Library Week, April 7 - 13**

National Library Week promotes the idea that in our always-online world, libraries give us a green light to something truly special: a place to connect with others in our community, learn new skills, and focus on what matters most.

**Our Library is the heart of our city. Our librarians keep that heart working by offering friendly faces, library programs, and service.**
