

## **Question and Answers for RFQ 2025-14 Paddling Access Park**

November 14, 2025

1. Will the City provide a topographic survey of the park property?
  - What we provided is what we have for the property so all other needs will be a part of this project.
2. Has a geotechnical survey and report been prepared for the park project?
  - What we provided is what we have for the property so all other needs will be a part of this project
3. What is the overall construction budget?
  - Construction budget will be determined in Phase 1.
4. Is the City considering a pre-fabricated or build-on-site restroom?
  - Either bathroom type is fine. We have a CXT restroom at one of our Nature Preserve sites and something similar would be good for this site too but we are open to other ideas.
5. Since 2023, when the environmental report was prepared, has the site change any from the remnants of Hurricane Beryl in 2024 or any other tropical storm?
  - Either bathroom type is fine. We have a CXT restroom at one of our Nature Preserve sites and something similar would be good for this site too but we are open to other ideas.
